- **Drinking Kumis** – it is fermented mare's milk!
- **Yaks** – it is possible to see these unusual animals in the mountains!
- **Mountains, Mountains, Mountains** – amazing nature will surprise you!

### Day 1: Bishkek

Welcome to Kyrgyzstan! Our guide will wait you in the airport and then you will drive together to the hotel. After a short rest we will start a city tour. The main buildings in Bishkek were built at Soviet Times and now you can see this kind of architecture. During the tour you will find out the whole history of our capital from the very begging till our days. Your guide will tell you a lot of amazing facts about Bishkek. This city tour includes visiting of Victory Square, Oak Park with stone sculptures, Old Square, The House of Parliament, Main Ala Too Square, White House, Manas Hero Square, City Hall and many other interesting places.

It is not a real city tour without visiting our Asian Bazaar! We will show you it today and you will be able to make a lot of photos there. This bazaar is very colorful and noisy. People sell there all kinds of goods. You will walk there about an hour to see local people, goods, fruits, vegetables, meat store, and other things! In the evening we will go to a national restaurant

to eat Kyrgyz food. Kyrgyzstan is the country of nomads and almost all dishes consist of meat. If you prefer vegetarian food – just tell your guide, she will help you to choose the proper one. Among meals that have meat we suggest to taste during the tour the following dishes: Manti – look like big ravioli, kuurdak – fried pieces of meat with potatoes, lagman – a little bit spicy noodle soup, guro lagman – the same noodle with vegetables but dry, plov – rice with meat and small pieces of vegetables. Ask your guide – she will always suggest you something delicious! After dinner if you wish we can go for a walk to the main Square Ala Too. There are special fountains that always change their directions and colorful lights to enjoy the view!

## **Day 2: Bishkek – Burana Tower – Issyk Kul Lake**

Today we will drive to the most famous place of Kyrgyzstan – Issyk Kul Lake!!! Issyk Kul is the biggest mountain lake in Central Asia, and the second biggest mountain lake in the whole world! Its length is 180 km and it is 60 km wide! The view of the lake is fantastic – it has pure blue water and it is surrounded by high Tien Shan Mountains from all sides! You can swim in the lake and to see mountains around you with snow white peaks! The water is about 22 degrees and many people come there to swim in summer time. For more than 1 500 years local people considered the lake to be a sacred one. Nobody was allowed to swim there and even to touch the water! Only in 19th century people started to swim in the lake and to go fishing. On the way to the lake we will visit our popular Burana Tower. It was built in the 11th century. There was a thriving city on the Great Silk Road. Many caravans were there while moving from China to Rome. Also you will see Stone Warriors – Balbals. If a famous soldier was killed during a war then people would always make a stature for him. They belong to the 7-8th century. The road to the lake goes along Kyrgyz range and then you drive inside Boom gorge. The views are really stunning there! After coming to your home stay you will have time to go on the beach and to swim in the lake. At 8 p.m. you will have a good dinner in a local restaurant.

### **Day 3: Issyk Kul Lake – Karakol**

In the morning we will visit a place where you will see ancient pictures on stones! They are called petroglyphs. These petroglyphs were made more than 2 000 years ago by shamans. All these stones are still at the same place as they were at that time. You can see a panorama view of the Issyk Kul Lake from this place – people were thinking that it was the middle of the world. All these pictures were depicted on the southern side of stones. People believed that in this case the God of the Sun will see their messages. Also beside the pictures there are big stones put in a circle way to make sacrifices. After an excursion you will visit a museum in Cholpon Ata. There are many attractive things from the Kyrgyz history, handicraft, music instruments and a lot of other interesting artifacts. Afterwards we will drive to Karakol town. The road goes along the northern shore of the lake and you will have many photo stops to make pictures of our amazing lake. Karakol is an old town that was built in the time of Russian Czar. Many houses still have decorated wooden frames of windows. The main highlights of Karakol town are Russian Orthodox Church and Dungan Mosque. Russian Orthodox Church was built at the end of 19th century. It is a wooden church and there are many nice icons that are very old. You will have enough time to go around the church and to go inside also. Women have to cover their head with a kerchief. Dungan mosque is made by Chinese architecture as a present for Kyrgyz. It is made of wood without using any nails.

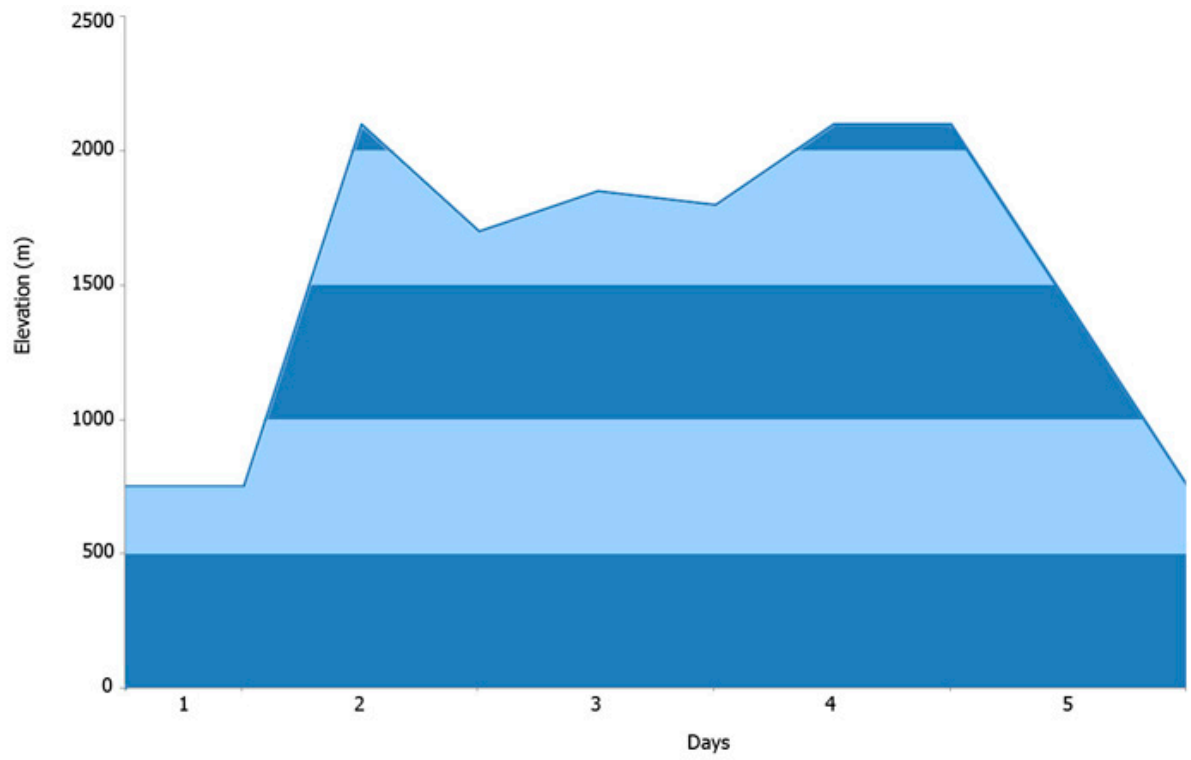

#### **Day 4: Karakol – Jeti Oguz**

We will travel today to Jeti Oguz gorge. This is one of the most well-known places in Kyrgyzstan! It's famous for its red rocks formations that have a name Seven Bulls – Jeti Oguz. Your guide will tell you a beautiful legend about these rocks. Also you will see our amazing Broken Heart Mountain! We will make many photos there and if you want it is possible to go on a top of a mountain (20 minutes) to see a panorama view of the gorge! There are yurts on the way and people can offer you to drink Kumis. It is a national drink that is made of mare's milk, and it is an alcoholic drink as a beer. Today you will meet real nomads! They come to these mountains in summer times with their cattle. Nomadic families do not live at one place all the time. Every month they move from one pasture to another in order to have more fresh grass. Nomads still live in their felt houses yurts. It is the best dwelling to live and to transfer from place to place. And this night you will also spend as real nomads in Kyrgyz yurts!!! It is a great opportunity to get unforgettable memories about Kyrgyzstan and its people! Yurt is a collapsible felt dwelling. It is made of felt and wood without using a single nail! To fix the wooden sticks people use leather stripes. It takes just one hour to collapse or to erect a yurt. And you need just 3-4 horses to take it from one place to another. It is very nice to sleep inside at summer time and it is very warm to sleep there in winter. Take your chance to get new feelings! Nomads still keep all their amazing traditions that are completely different from all other nations in the world. Also it will be possible to communicate with nomads.

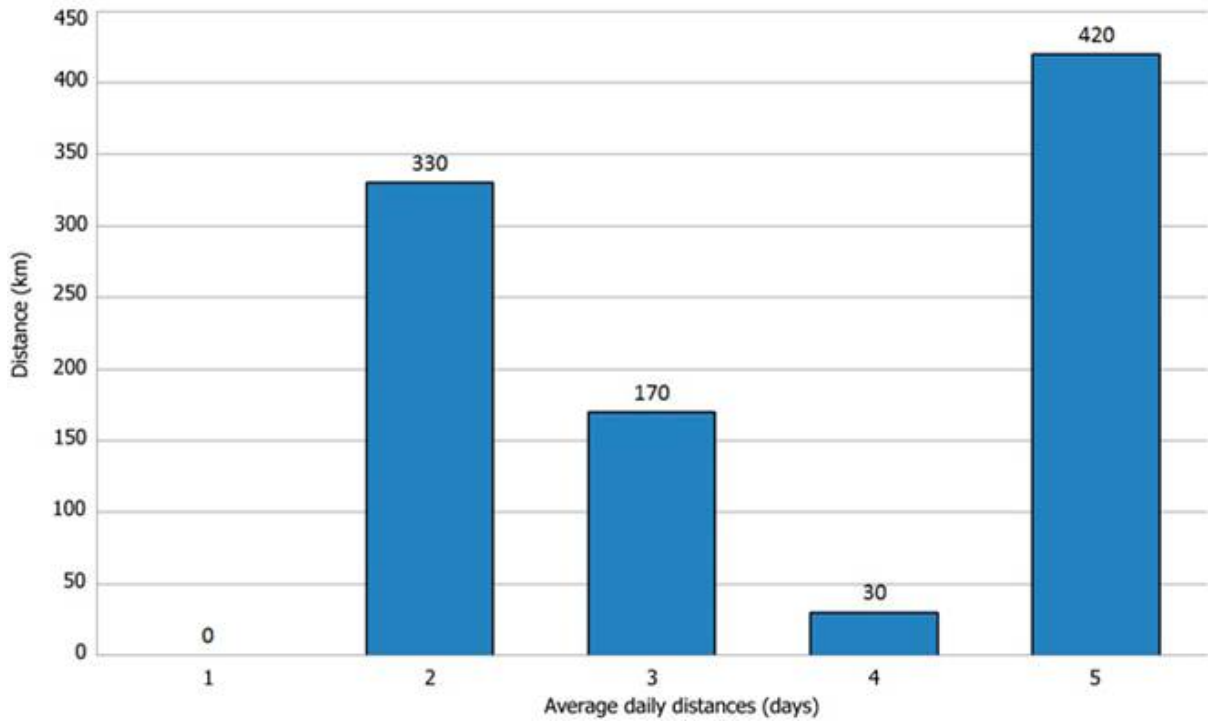

### **Day 5: Jetti Oguz – Bishkek**

After a night in yurts we will drive back to Bishkek but the road will be completely different. This time we will drive along the southern shore of Issyk Kul Lake. This is a great chance to see the whole lake from all sights! If you wish you can swim there for 30 minutes before we continue our driving. Today we will visit one of the most interesting families in Kyrgyzstan – the family of Eagle Hunters! There are still some people in villages that continue this ancient way of hunting in our days. They train eagles and hawks when they are young and every winter go with them to the mountains for hunting. The Eagle Hunter just let the bird fly and it finds the victim on its own. You will find out many interesting facts about this way of hunting and you will be able to make photo while keeping the bird on your hand! We will have lunch in this house and the owners will tell you unusual stories about their hunting. This family goes hunting like this from generation to generation and that is why they know everything about it. After an exciting communication with eagle hunters we will drive to the capital of Kyrgyzstan – Bishkek city. Farewell dinner in Bishkek will be at 9 o'clock. After a night in a hotel you will be transferred to the airport early in the morning.

## Weather in Kyrgyzstan:

The climate in our country is totally continental. There is sunshine more than 200 days a year. The temperature during summer time in the lower areas may rise up to 40°C. In higher altitude (3 000 - 4 000 m above sea level) it will be around 20°C and it may become cold during the night (sometimes 0°C). Weather can change 3-4 times a day in mountains on altitude 2 500 - 4 000 m.

Temperature	May	June	July	August	September	October	November
Day (°C)	+23	+26	+30	+35	+27	+20	+14
Night (°C)	+18	+20	+25	+28	+19	+11	+6
Day (°F)	+73	+79	+86	+95	+81	+68	+57
Night (°F)	+64	+68	+77	+82	+66	+52	+43

Travel season in Kyrgyzstan is from May till the end of October. The best time to have a cultural tour is from the middle of June till the end of August. At this time are warm temperatures and almost no rain. At September we have cooler temperatures with a chance of rain. You can see nomads and yurts only from the middle of June till the end of September.
